

**Co-funded by
the European Union**

**Universidad de
Castilla-La Mancha**

reZEB Workshop

**Fostering Renewable energy technologies and energy Efficiency
knowledge towards near Zero Energy Buildings of engineers and
professionals in Western Balkan Countries**

November 7th, 2025

Workshop on:

**‘Renewable technologies and advanced materials for
sustainable buildings’**

**Implementation of energy efficiency measures and renewable energies. The
case study of the UCLM**

Dr. Andrés Honrubia (University of Castilla-La Mancha, Spain)

Geothermal energy for more sustainable buildings

Dr. Luis Mansilla & Dr. Carmen Mata (University of Castilla-La Mancha, Spain)

**Convention and innovation in design and application of construction
materials for maximum energy efficiency**

Dr. Natia Anastasi (Neapolis University Pafos, Cyprus)

**Round table: “Obstacles and drivers for increasing the energy efficiency in
the residential sector“**

**Universidad de
Castilla-La Mancha**

**e-CAMPUS
UNIVERSITÀ**
